

# Kedou in The Land of Hearts

## Chapter 1. Whoosh, Down the Chimney!

Create a stage for Kedou and his friends to act out their adventures in The Land of Hearts. Do it with your Fefe, Meme, brother, sister or friend and have lots of fun!

Here's what you do. See the photos on **Pages 3 and 4** to help you.

1. Print out the picture on the next page. Use a colour printer if you can.
2. On the picture you'll see 3 types of action lines as described below:

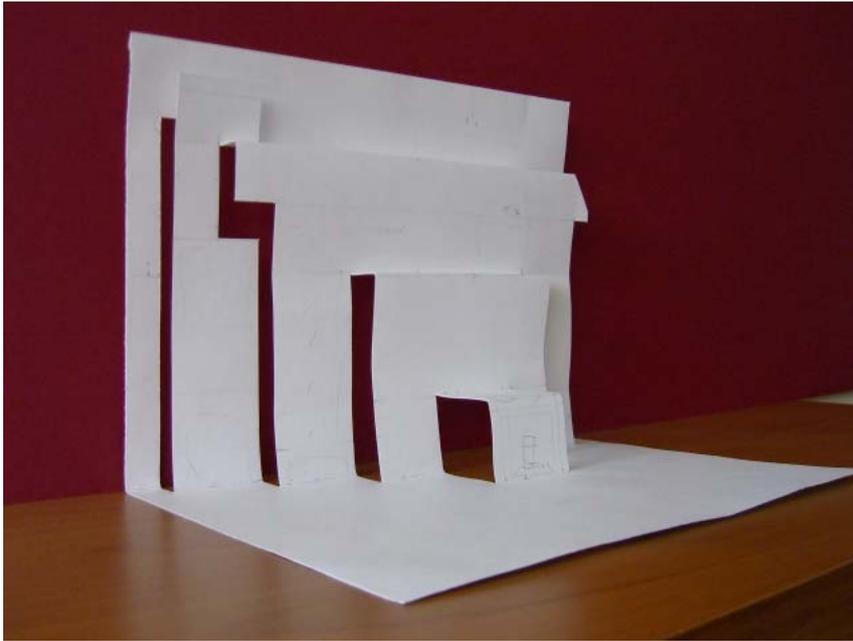

- (a) **CUT**: Cut along the line using a blade or a pair of scissors. Stop when you see the circle at the end of the line. Be very careful when you're using the blade or scissors, okie? Maybe you Fefe, Meme, older brother or sister can do this for you.
  - (b) **V-FOLD**: Fold along the dashed line such that the crease points away from you, towards the back.
  - (c) **M-FOLD**: Fold along the dashed line such that the crease points at you, towards the front.
3. Prop up the stage against a wall or box and have lots of fun with Kedou in The Land of Hearts.
