

Kedou Explores the City

Kedou goes sight-seeing in the city and makes more new friends!

Hop on a **bus** that will take you around town in the cheapest way, or ride a **taxi** to wherever you want. Along the way, watch out for other types of vehicles – the little old lady zipping along with her dog in her **buggy**, the family going on holiday in their trusty **car** and that bright red sports car parked by the kerb and has attracted the traffic policeman's attention.

Kedou loves to watch people **so see where to put him** so that he can have a bird's-eye view of the city. He can see the river with that **speed-boat** whizzing by while the **ferry** moves along at a steady pace. Is that young man on the blue **scooter** waving to Kedou? **What other forms of two-wheel transport can you identify?**

What jobs do you think the people have? What about the buildings – can you spot the **hospital**, **fire station**, **shopping centre**, **restaurant** and **police station**? Be very careful when you cross the road, always watch out for on-coming vehicles, like that taxi or motorcycle. And if you love old cars, why, maybe you can take a ride in one!

You don't have to travel far to find your own adventures, the city you live in is full of places to explore. **Tell your own story about life in the city.**
